Clean

Today, you are having your teeth cleaned.

This will make your teeth sparkly and your gums healthy.

We will need to clean them with
our special tooth cleaner.

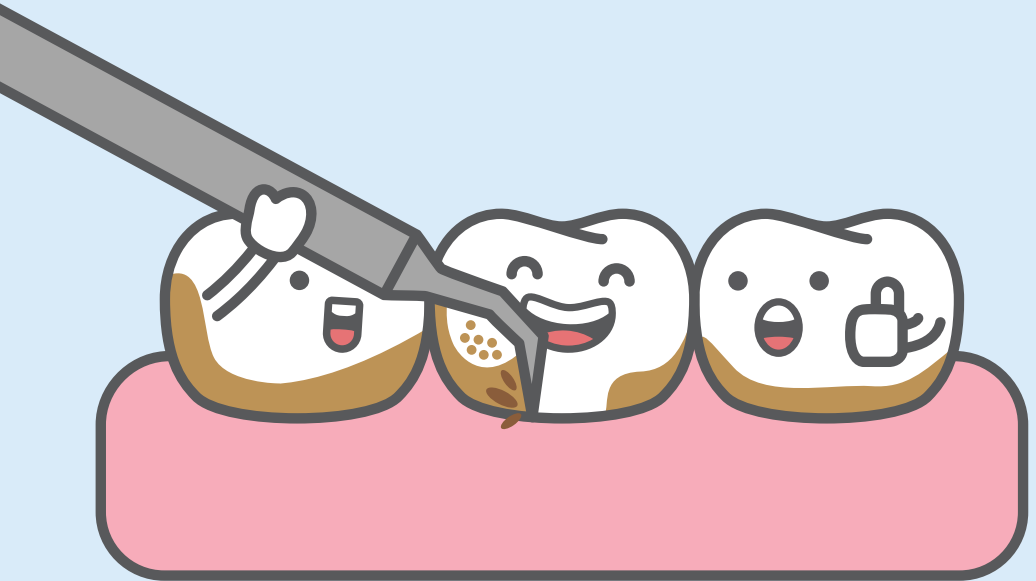

It buzzes and sprays out water.

We also need
to use little
tools to catch
the water –
these can
be noisy.

Sometimes we need to use a plastic tooth cleaner to clean tricky areas.

We may also use a special electric toothbrush and toothpaste to clean soft food off your teeth.

Now your teeth are sparkling and super clean.

Sometimes we need to put special paste on your teeth to keep them strong. This is our paste that we paint on with our little paint brush. What do you think it smells like?

Your clean is complete.
